**EMBASSY OF GREECE**  
**Commercial Office**

**Mrs. Chrysanthi PASSADI**

First Counselor for Economic  
& Commercial Affairs

Dear Mrs. Passadi,

I have the pleasure to express my gratitude you on behalf of my organization for the existing cooperation and thank you for the last meeting that we held together on issues of common interest.

The following letter is a request, which you know from the communication with the Director General of BiznesAlbania.

Allow me to make you known that the Investors' and Industrialists' Association is a founding association of BiznesAlbania and "EUROFISH" factory headed by Dr. Kujtim Shkreli is an important part of this association.

"EUROFISH" produces canned blue fish and processes about 4-6 million kg per year.

For the purpose of supporting the production and business plan for the years ahead, he needs to contract Greek fishing companies, which possess two or more fishing boats with lights (circular fishing), which should fish in the Adriatic Sea and Ionian Sea.

According to the standards of this industry, the fishing begins in March-April and continues until October.

"EUROFISH" takes to its responsibility to purchase all the quantity. Prices will be set in the contract. "EUROFISH" provides fishing permits and other residential permits for the Greek crews in Albania. He proposes cooperation from one to five years.

We wish this information to be forwarded to the authorities of your country and especially to the Chambers of Commerce and Employers' Associations of this sector, in order to establish contacts and carry out this project, which we think

is effective, not only for our businesses, but for the Greek ones, taking into account the common factors of economic development of both our countries.

Looking forward to your understanding and support,  
Sincerely yours

**Luan BREGASI**  
**PRESIDENT**
