

**2022 the 5th China Jinan New Kinetic Energy  
International High Level  
Talent Innovation and Entrepreneurship Competition  
European Belgium Division Project Collection**

**(First Round of Notification)**

**Introduction:** This competition is a high-level innovation and entrepreneurial talent competition in China. The competition has gathered 20 science and technology parks for participating projects, 36 investment and financing institutions, banks from Jinan Talent Venture Capital Alliance, as well as top funding management and investment and financing institutions from Beijing, Shanghai, Shenzhen, etc. to provide investment and financing support for the participants to start business in Jinan, Shandong Province, China.

**Project fields:** Big data and new generation information technology; intelligent manufacturing and high-end equipment; biomedicine and big health; new energy and new materials; modern agriculture and low-carbon environmental protection.

**Requirements:**

1. The participating projects have the potential for innovation and commercialization. The proposed achievements, products or technologies comply with national laws, regulations and industrial policies, and the participants have no intellectual property disputes.
2. Roadshow language is English.

**Rewards:**

1. Rewards for the European Belgium Preliminary Competition: The European Preliminary Competition consists of 5 fields, with a total of 5 winners and a reward of RMB 30,000 per winner (certificate); 10 finalists with a reward of RMB 10,000 per nomination (certificate).
2. Awards the Jinan final in the 5 fields: There are 5 first prizes in the final, with a reward of RMB 50,000 per winner (certificate); 15 second prizes with a reward of RMB 30,000 per winner (certificate.); 25 third prizes, with a reward of RMB 20,000 per winner (certificate).

**Policy support:**

1. Final award-winning projects starting a business within one year, accumulating more than 10 million equity-type cash financing, and meeting the basic application conditions of Jinan's leading talent introduction policies, will be directly included into the Talent Engineering Management Program after on-site inspection and comprehensive demonstration, and will be provided financial support.
2. Various service will be provided, e.g., supporting establishing business, personnel recruitment, investment, and financing guarantees, etc.

**Structure and locations:** The competition is divided into European Belgian preliminaries and Jinan finals with an online + offline mode.
