Natural choices that make a difference

Seriousness and simplicity have always inspired the formulation of our products.

Nature helps us with its innate effectiveness.

Since 2012 we work for the respect for the environment, for people and for beauty in its widest sense.

NaturaEqua cosmetics are certified BIO (Aiab), VeganOK, Made in Italy and our product's philosophy is "Km Vero". The best mix of ingredients "km 0", local and traced or from fair trade commerce with controlled production chains.

The low environmental impact goes beyond the content. Our packaging is minimal and we are always looking for new materials that are more and more recyclable, plastic free or plant-based.

Our "cosmEthics" is a choice of products that unite you and us in our choices of life. Together we can make a difference.
