International Conference

**Transport contribution in the reduction of the Green House Gas emissions
in the framework of the European Green Deal, impact and challenges to
the transport market » & Awards ceremony of Transport Prize HCBTA
“Dimitrios Tsamboulas” 2024**

The Conference and Awards ceremony is organized by the Union of Hellenic CCI's (KEEE), the National Technical University of Athens (NTUA) and other Greek Universities, and the Hellenic Chambers & Business Transport Association (HCBTA) with sponsors of the awards and the event the Thessaloniki CCI, the Union of Hellenic CCI's, Volos Port Authority, G. Samoladas Truck & Cargo Insurance, and the Supermarket Sklavenitis.

Greek and international experts describe the issue of Green House Gas emissions in the framework of the European Green Deal, impact and challenges in the transport market followed by the Awards ceremony of Transport Prize HCBTA Dimitrios Tsamboulas 2024, on the day that coincides with the 10th years from the death of our deceased Professor of the National Technical University of Athens and close partner and friend of the HCBTA and of the Hellenic Chambers of Commerce and Industries Dimitrios Tsamboulas.

The Conference will close with the Awards ceremony of Transport Prize HCBTA Dimitrios Tsamboulas 2024.

Simultaneous translation Greek/English

Awards Ceremony of Transport Prize H.C.T.A «Dimitrios Tsamboulas» 2024

8th Annual Panhellenic Awards on the subject of :

«Transport contribution of passengers and freight and their respective infrastructure, in the reduction of the Green House Gaz emissions in the framework of the European Green Deal with first intermediate objective 55% reduction of GHG emissions till 2030 (Fit for 55'), impact and challenges to the road transport of our country »

The **annual Transport Award H.C.T.A "Dimitrios Tsamboulas"** was established in 2016 by the Hellenic Chambers of Transport Association in memory of the deceased professor of the National Technical University of Athens (NTUA) and close collaborator of the H.C.T.A and the Greek Chambers, Dimitrios Tsamboulas, for his longstanding work and contribution to Greek transport. It is addressed to students and young graduates of Greek universities that have faculties, departments, sectors or direction/deepening studies in transport, shipping, economics and management. The prize is awarded to the best three works carried out by a student or new graduates, or a group of students or new graduates of the afore mentioned universities.

This year the three first prizes for the best work of the participants will be monetary (**A' 3000 EUR, B' 1500 EUR και Γ' 750 EUR**). **This year's sponsors are:** A' prize Thessaloniki CCI, B' prize & Union of Hellenic CCIs, C' prize Volos Port Authority (Volos PA), while sponsors of the Conference are : **Samoladas Truck & Cargo Insurance, and SKLAVENTITIS.**

In the context of their work, the contestants should identify the Transport contribution of passengers and freight and their respective infrastructure, in the reduction of the Green House Gaz emissions in the framework of the European Green Deal with first intermediate objective 55% reduction of GHG emissions till 2030 (Fit for 55'), impact and challenges to the road transport of our country. The conduct of the competition follows two (2) Phases of participation and submission of papers.

First Phase Submission of candidacy: The submission of candidacy is accompanied by an official document proving that the candidates are either active students or recent graduates who received their degree not more than three academic years. All candidates that meet the above criteria are accepted. **Phase B: Completion and delivery of works.** The accepted participants or groups of participants are requested to complete their work and deliver it within a specified time.

The work is evaluated by a special Evaluation Committee, consisting of a small number of members invited by ESYM, coming from Universities, the Ministry of Infrastructure and Transport, as well as from CCIs.
