# Lebanon

## A Turning Point

Lebanon is moving toward renewal, reform, and sustainable growth. Strategic sectors — **construction, infrastructure, electricity, and renewable energy** — are urgent priorities and exceptional opportunities for innovation and investment.

To drive this vision forward, the Lebanese government, in partnership with the private sector, will host a series of high-level investment conferences in 2025, strategically positioning Lebanon back on the path to economic progress.

# IFP Group

## The Partner for Progress

For over 45 years, IFP has been a leading organizer of world-class exhibitions in Lebanon and across the region. With a proven track record of landmark events — including Project Lebanon and other industry-defining platforms — IFP has consistently connected markets, fostered partnerships, and showcased opportunities for sustainable growth.

# Project Lebanon 2026

## Your Gateway To Opportunity

As Lebanon embarks on its transformative journey, **Project Lebanon 2026** stands at the forefront as the region's premier construction, infrastructure, and renewable energy exhibition.

Now in its **27<sup>th</sup> edition**, the event will take place from **16 to 19 June 2026** at the Seaside Arena, Beirut New Waterfront.

Project Lebanon 2026 is more than a trade event – it is a direct entry point to a market in transition. It offers unparalleled opportunities to engage with key decision-makers and unlock investment potential. Featuring **cutting-edge technologies, sustainable solutions**, and a **dynamic B2B environment**, the event embodies the nation's commitment to rebuilding with resilience and vision.

# Reconstructing Lebanon

## Opportunities You Can Count On

4.7%

GDP growth is forecasted for Lebanon in 2025 – the first positive growth since 2017

US\$ 11 BN

Total funding needed to rebuild Lebanon after the war

US\$ 6.3 BN

Reconstruction needs of the housing sector in Lebanon

US\$ 1 BN

Earmarked for critical infrastructure sectors in Lebanon

57%

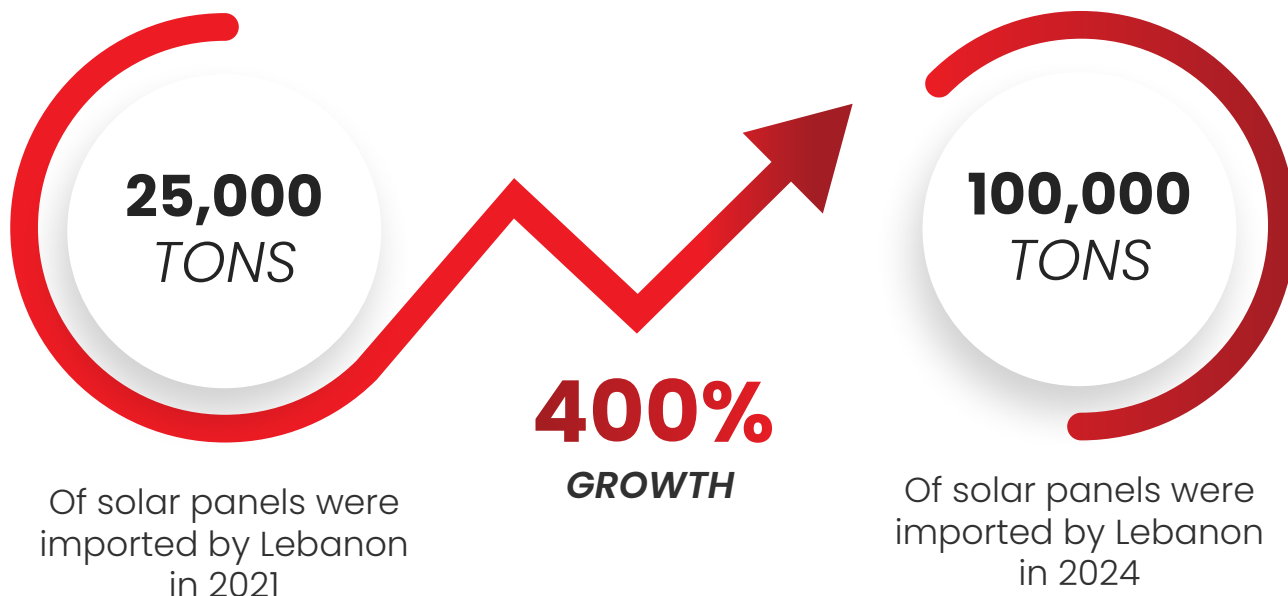

Surge in Lebanon's Cement Deliveries

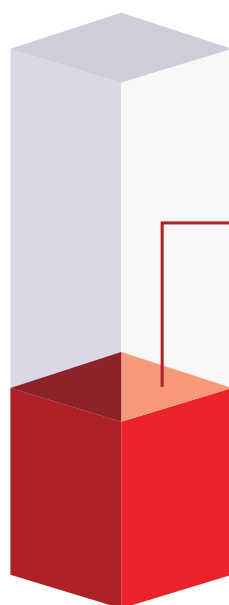

# Energizing the Nation

## Opportunities in Renewables

**US\$ 800 MN**

The planned cost of one 800 MW gas-fired plant under a BOT model

of Lebanon's energy mix is targeted to come from renewables by 2030

## Concurrent **Activities**

### Interiors Lebanon

Held alongside Project Lebanon, Interiors Lebanon is the country's dedicated platform for interior design, furniture, and decoration. It brings together leading brands, designers, and suppliers to showcase the latest trends, products, and creative solutions for residential, commercial, and hospitality projects.

### B2B Matchmaking Platform

Our tailored B2B Matchmaking Program connects exhibitors and pre-registered visitors with qualified buyers, distributors, and decision-makers. Meetings are scheduled in advance to maximize networking opportunities, drive meaningful partnerships, and ensure productive participation.

### Specialized Conference

Running in parallel with the exhibition, The Specialized Conference gathers industry experts, government representatives, and thought leaders to share insights on Lebanon's reconstruction, infrastructure development, renewable energy, and sustainable urban planning. Through panel discussions and technical sessions, attendees gain valuable knowledge on emerging trends and solutions.

## The **Venue**

Strategically located in Beirut's central district, only few minutes away from major hotels and the airport, the Seaside Arena features over 25,000 SQM of multi-functional areas including exhibition space, event halls, conference facilities, ballrooms, and catering services.

## The **Organizer**

IFP Lebanon is part of IFP Group, the Middle East's leading trade fair and conferences organizer. In the last 45 years, IFP has organized over 580 international trade fairs and conferences throughout the region and has established a client base of more than 35 governments and thousands of international companies and trade associations.
